Hypnotize

HYPNOTIZE captures the enchanting allure of a vintage Persian carpet, where the traces of natural wear and tear over the years have gracefully faded away. The mesmerizing patterns blur together, inducing a hypnotic effect that liberates the mind and beckons tranquility. The antique white lines, reminiscent of the carpet's warp and woof, serve as a reminder of the Evo-dry technology employed in select areas, enhancing their sensitivity to touch and feel.

Viola

VIOLA is an enchanting pattern featuring a harmonious blend of vibrant and deep blue leaves, delicately painted in a watercolor style. The design gracefully descends down the wall, while its colorful petals unfurl as if swayed by a gentle breeze, evoking a sense of captivating foliage. A backdrop of shimmering silver fabric beckons you to explore beyond the surface and uncover the enchantment of the lush vegetation depicted. Imagine ethereal flowers suspended in mid-air, their delicate hues enhancing the timeless and romantic allure of this pattern. The playful and light-hearted design infuses any space with a dreamy ambiance, infusing movement and vibrancy into its surroundings.

Hope

HOPE is a source of tranquility and serves as an inspiration for this forest-themed design. The design showcases a harmonious arrangement of natural elements, creating a serene atmosphere that is perfect for relaxation areas. Allow yourself to be captivated by the silent interplay of intricately designed branches, adding a touch of elegance to any space. The delicate yet dynamic pattern, achieved through the use of the inspiring Partial Color technique, allows contrasting elements to effortlessly stand out against the background. The resulting ambiance is intimate and pure, offering a unique material effect that can enhance a multitude of sophisticated environments.

Viva

VIVA is a modern and unique design that features elegant overlapping layers of geometric shapes and thin lines. It invites exploration of the space beyond the porthole with its composition based on the juxtaposition of straight lines and curved shapes, imparting a strong dynamism. Inspired by the architectural movement of the 1950s, Brutalism, VIVA incorporates elements such as pure, rigorous narrative patterns, monochrome shades, and texture. The rough texture variation on the surface, along with its irregular and extravagant characteristics, adds to the distinctiveness of the VIVA design.

Riven Slate

RIVEN SLATE is a mesmerizing creation inspired by volcanic rocks found in the east. It beautifully combines the elements of earth and water, as the magma of volcanoes meets cold waters to form captivating rock formations. This unique design is widely favored in contemporary and modern architecture, particularly for large surfaces. With its sophisticated blend of intense greys and neutral tones, RIVEN SLATE effortlessly infuses any space with a minimal and modern style. The product's relief surface further enhances its appeal, adding depth and texture to its timeless charm and layered structure.

Stonetech

Stonetech is «monolithic»; it indicates harmony despite being unified. Stonetech comes with a natural stone relief that is soft to touch, yet express a fine natural stone look surface. Parallel details with a sufficient amount of monotone surface make this design fashionable yet suitable for facade and outdoor applications.
